PROFESSIONAL SUMMARY

Data Analyst with over a year of hands-on experience automating CRM operations, cleaning and migrating large datasets, and building reporting tools that reduce manual work. Builds Python, SQL, and VBA automation pipelines using an AI-assisted, prompt-engineering-driven development approach — combining tools, iteration, and practical problem-solving to ship working systems fast. Background in Electronics Engineering (licensed Electronics Engineer and Electronics Technician) brings a strong technical and analytical foundation to data and process work. Currently deepening Python fundamentals and exploring applied machine learning and generative AI to support faster, better-informed decision-making.

CORE SKILLS

Data & Analysis: Exploratory Data Analysis, Data Cleaning & Validation, Data Migration, Dashboarding & Reporting

Tools & Platforms: Zoho CRM, Zoho Analytics, Vtiger CRM, Google Analytics (GA4), Google Tag Manager, Excel/VBA

Programming: Python & SQL for data automation (AI-assisted / prompt-engineered development), API-based automation pipelines

Lead Gen & Enrichment: Lusha, Apollo, Pipleads, ZeroBounce

Applied AI: Prompt Engineering & Vibe Coding for code/automation generation, practical use of ChatGPT/Gemini for workflow and documentation automation

PROFESSIONAL EXPERIENCE

Data Analyst — Thinklogic Media Group (TMG)

Aug 2025 – Present

Cagayan De Oro City, Philippines

- Built automated Python data pipelines to extract and process 300,000+ CRM records, cutting recurring task time from 1–2 hours to 15–20 minutes.
- Maintained and optimized Vtiger CRM (v7.4.0), improving data accuracy and system reliability with minimal downtime.
- Led end-to-end migration of legacy Excel workflows into Zoho CRM, cleaning and normalizing large datasets to establish a centralized, scalable cloud database and cutting manual data handling by roughly 60%.
- Developed VBA automation tools that cut manual Excel processing time by 70–80% for data preparation and validation tasks.
- Integrated Zoho CRM with lead-generation and enrichment tools (Lusha, Apollo, Pipleads, ZeroBounce), improving prospect data accuracy and reducing email bounce rates.
- Built dashboards and reports in Zoho Analytics to track pipeline health, trends, and data quality metrics; configured Google Analytics, Google Tag Manager, and LinkedIn Campaign Manager tracking, improving accuracy by roughly 80%.

Full-Time Training in Malabon (FTTM)

Aug 2023 – Jul 2025

Malabon City, Philippines

- Completed a 2-year full-time structured development program built around discipline, public speaking, and service.
- Led teaching and public speaking sessions for groups, building confidence communicating with unfamiliar audiences; handled administrative writing and documentation for daily program operations.
- Coordinated outreach initiatives in remote and under-resourced areas, including engaging indigenous communities on minimal budget — built strong adaptability, cross-cultural communication, and problem-solving under pressure.

Student Intern — Department of Science and Technology

Jun 2021 – Aug 2021

Cagayan De Oro City, Philippines

- Built a Python automation pipeline in Visual Studio Code, using APIs and JSON to pull data from Google Sheets and auto-generate 40+ page budget documents, cutting processing time from 20–30 minutes to 5–10 minutes per file and reducing repetitive manual encoding for SME/MME budget requests; troubleshooted and refined the code using Stack Overflow and developer documentation.

EDUCATION

Xavier University – Ateneo de Cagayan
